

LULA™ Magazine Loader & UN-loader

Man,

I love this thing! I've had one for about two years now and it is great! With this gizmo you can load & UNLOAD AR-15/M-16 magazines FAST! No hurting finger tips or rounds flying all over the place... Originally designed by the Israeli Military.

Advantages:

- Both
Loads AND Unloads
- 35sec
loading 30 rd.
- 5sec
unloading 30 rd.
- Safe
on fingers and magazine
- Absolutely
no sore thumb!
- size
- Durable
best quality glass-reinforced polymer
- Weights
approx. 38grams (1.3ounce)

- Constructed

of only two parts

- ISO9002

manufacturing

- Chemicals

resistant

Other

advantages:

- Great

comfort when several magazines need to be cleaned
(unloaded and reloaded).

- Needs

no dexterity or training to use.

- Needs

no maintenance.

- Useable

also in zero light environments.

- Useable

with gloves in freezing weather.

Operation:

Loading

1.
"Click" the LULA™ loader
over the open end of the magazine;

2.
Have the LULA™ loader and magazine
face upwards and

3.
Move the lever to-and-fro as you feed rounds into
the magazine.

Unloading

1.
"Click" the LULA™ loader
over the open end of the magazine;
2.
Have the LULA™ loader and magazine
face downwards

and

3.
Move the lever to-and-fro as the rounds expel
out of the magazine.
That's
it!

Available

soon for AK-47 mags & Galil mags.
